
Skills

- **Programming Languages:** Java, SQL, Html, Css
- **Tools:** MongoDB (Atlas), Git, GITHUB, AWS, Azure, Jenkins, Linux
- **Concepts:** OOP, DSA, Rest APIs, Agile, Testing & Debugging, Complexity Optimization
- **Soft Skills:** Leadership, Time Management, Efficiency

Projects

FlappyBird

[\(Github - Link\)](#)

- **Technologies:** JAVA, MAVEN, MONGO-DB, Launch4j, JLayer, OOP
- Developed a cross-platform game to demonstrate proficiency in Java and OOP.
- Implemented clean OOP principles and a modular architecture for maintainability. Integrated JLayer for MP3 sound effects. Utilized MongoDB to persist user scores.
- Packaged the game as a Windows executable using Launch4j.
- **Resulted in a better-optimized game with user score persistence and easy distribution.**

Modern Portfolio

[\(Github - Link\)](#)

- **Technologies:** React, Three.js, AI, ReactNetlify, Vite, Framer Motion, GSAP, Lenis, React Router DOM, EmailJS, ESLint, Parallax Tilt, and Intersection Observer.
- Designed a modern, responsive portfolio using tools like React, Three.js, and Framer Motion to showcase skills and projects.
- Utilized AI tools for efficient development. Optimized for SEO and cross-device compatibility.

Personal Portfolio

[\(Portfolio -link\)](#)

- **Technologies:** HTML, CSS, Netlify, CI/CD, Git, GitHub
- Built a foundational personal portfolio using HTML & CSS to learn web development basics and showcase early projects.

CI/CD Pipeline

- **Technologies:** AWS, Jenkins, Github
- Successfully hosted a website, demonstrating end-to-end automation and efficient deployment.

Work Experience

Cloud infra & Security (Celebal Technologies)

June 2025 - Aug 2025

- AZURE fundamentals & services with a emphasis on industry oriented projects and skill development.
- Created HUB and Spoke Topology & Three Tier Architecture.

Cloud Computing with AWS Internship (Learn & Build)

June 2024 - Aug 2024

- Gained hands-on experience with EC2 instances and website hosting.
- Improved Security, Reliability & Optimised deployment of web hosting.

Introduction to JAVA Training (Learn & Build)

June 2023 - July 2023

- Completed intensive training focused on core Java programming language concepts.
- Developed a Hangman game to apply principles of OOP and data structures.

Education

B.Tech in Computer Science & Engineering

2022 - 2026

Global Institute of Technology, Jaipur (8 CGPA)

Certifications

- MongoDB Developer's Toolkit by Geeks-for-Geeks
- HTML Basics by Great-Learning
